

## ASSIGNMENT 1 OUTPUT :

### BIO

#### Couple of things you need to know about me...

Hey there , I am Vaibhav Raj Srivastava. I am a Sophomore in Charusat University pursuing BTech in Computer Engineering.

I have knowlege about basic programming Languages Like C,C++,JAVA and am currently studying about PHP , MySQL and HTML.

#### Now something about my personal hobbies...

- Reading books
- Writing poems
- Playing cricket
- Watching movies

# ASSIGNMENT 2 OUTPUT :

## Parallel Universes

A parallel universe is a hypothetical self-contained plane of existence, co-existing with one's own. The sum of all potential parallel universes that constitute reality is often called a "multiverse". While the three terms are generally synonymous and can be used interchangeably in most cases, there is sometimes an additional connotation implied with the term "alternate universe/reality" that implies that the reality is a variant of our own, with some overlap with the similarly-named alternate history.

CONCEPTS RELATED TO PARALLEL UNIVERSES	
Hyperspace	Perhaps the most common use of the concept of a parallel universe in science fiction is the concept of hyperspace. Used in science fiction, the concept of "hyperspace" often refers to a parallel universe that can be used as a faster-than-light shortcut for interstellar travel.
Counter - Earth	The concept of Counter-Earth might seem similar to a parallel universe, but is actually a distinct idea. A counter-earth is a planet that shares Earth's orbit but is on opposition, therefore, cannot be seen from Earth.
Time travel and alternate history	Technically, alternative histories as a result of time travel are not parallel universes: while multiple parallel universes can co-exist simultaneously, only one history or alternative history can exist at any one moment, as alternative history usually involves, in essence, overriding the original timeline with a new one.

## ASSIGNMENT 3 OUTPUT :

This page says

Hello there , Welcome to my page!

OK
